

Wingfoot

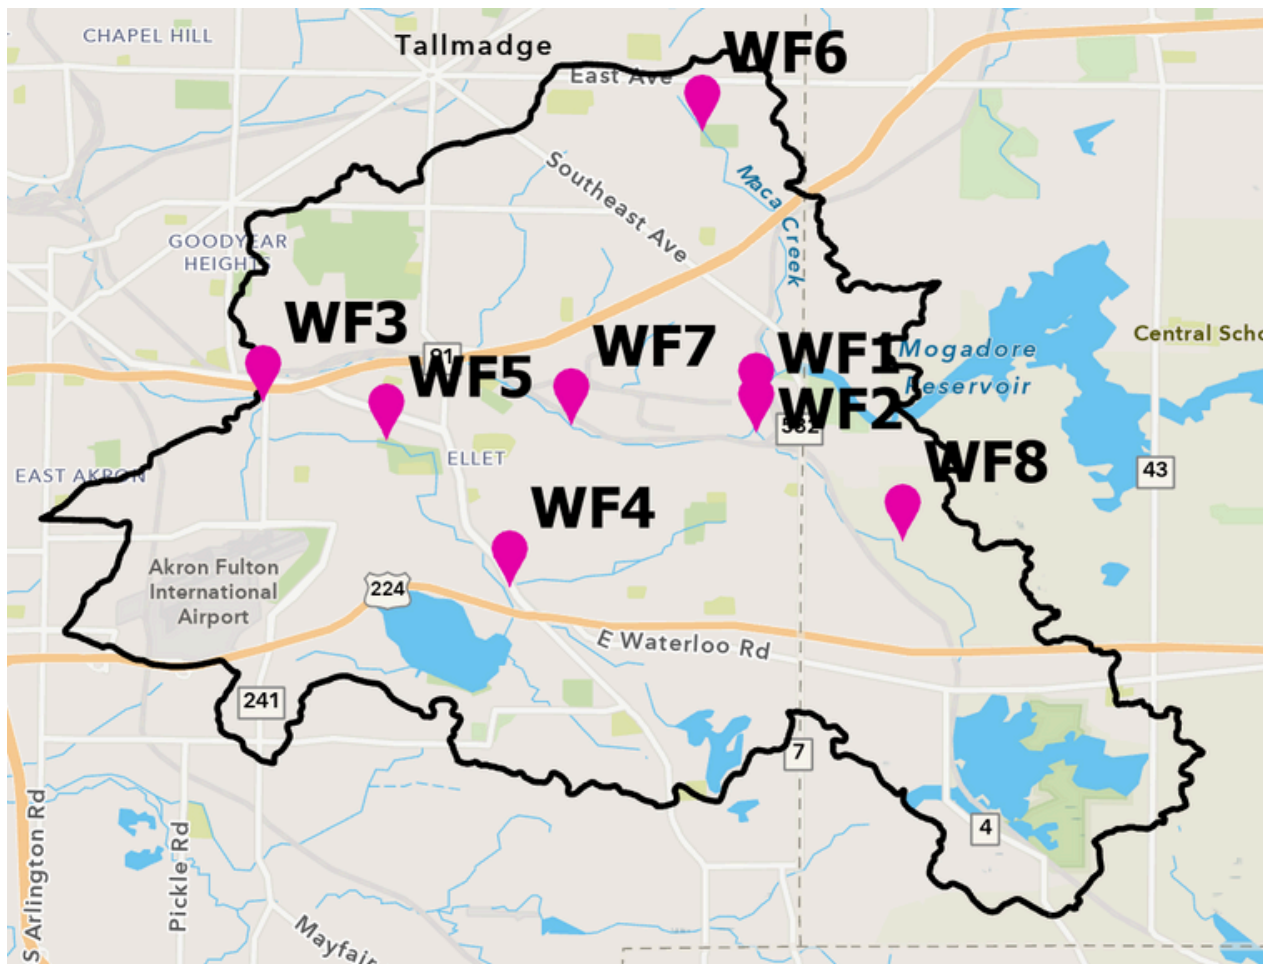

Thank you for sampling with us! Our program would NOT be possible without you!

Background:

The Wingfoot Lake Outlet–Little Cuyahoga River drains approximately 30.8 square miles (over 19,000 acres)! The water from this area drains into the Little Cuyahoga River into the Cuyahoga River and eventually makes its way to Lake Erie!

Watershed Concerns:

Bacteria, pollution, low oxygen, PCBs, sedimentation, abnormal flow

Sampling Time!

Scan each QR code with the camera on your phone and it will take you to the google maps of the exact location!
